Zhongshan Bolai Photographic Equipment Co.,Ltd

RGB01-Fill Light

Thanks for choosing Bolai fill light !

Please read manual carefully before install this fill light to your camera,for a better understanding of all functions.

Zhongshan Bolai Photographic Equipment Co.,Ltd
No.31 Industrial Avenue,tanzhou town,zhongshan city,Guangdong province, China

Product features

1%~100% power adjustment , fine dimming .

2500K~8500K color temperature adjustment

8 lighting modes

OLED display , accurate specular

Built-in rechargeable lithium battery, energy saving and environmental protection

0°~360° full color, and saturation adjustment
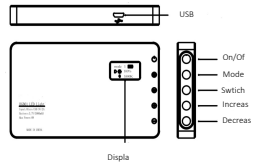

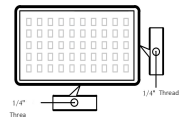

Accessories

RGB001   Rotatable base   USB cable

⚠️

1. This product is not waterproof ,please be careful in rainy or humid environment .
2. Keep out of reach of children .
3. Built-in lithium battery, do not disassemble , impact, squeeze or put it into fire.
4. Do not use it in flammable gas, otherwise it may cause explosion or fire.
5. Do not use in high temperature environment (over 35C°).
6. Please use a special charger for charging , and try to use it within the specified voltage/temperature range according to the operation instructions .

Tips

1. Pull out cable after charging finished.
2. If it not being used for a long time, please make it fully charged first before using again, otherwise it may not be able to boot.
3. To extend the battery life, factory recommend to carry out charging maintenance at least once every three months.
4. The built-in lithium battery will be affected by the low temperature , and the performance will weaken after a period of use, which is a normal phenomenon .
